MADE IN ITALY IS OUR BRAND

The essence of Made in Italy is craftsmanship: quality, genius, creativity. Our culture is a constant research for beauty.

Our products are admired all over the world, they inspire trust and desire, they are imitated and envied, but the magic essence of which they are made, cannot be reproduced. Our mission is based on a continuous creative and technological research, from tradition to an extraordinary innovation. The essence of Made in Italy is craftsmanship: quality, genius, imagination. Products become impossible to imitate and enhance prime materials as wood, leather, marble, Made in Italy a very strict control system in all stages of production and the certification of 100% Made in Italy does not allow any missteps. The Italian fortune of centuries of art, beauties, the ability to create with simplicity, and the art of reinventing. To love the Italian style includes vitality, beauty, manufacturing skills and excellent technologies. Our products are entirely made with Italian natural prime materials, and the production circle takes place entirely in Italy.

I nostri prodotti sono ammirati in tutto il mondo, sono imitati e invidiati, ma la magica essenza di cui sono fatti, quella, non è riproducibile. La nostra missione si basa su una continua ricerca creativa e tecnologica, dalla tradizione ad una straordinaria innovazione. L'essenza del Made in Italy è l'artigianalità: qualità, genio, fantasia. I prodotti diventano inimitabili ed esaltano materie prime come legno, pelle, marmo. Il Made in Italy ha un sistema di controllo molto rigido in tutte le fasi della produzione e la certificazione del 100% Made in Italy non ammette passi falsi. A questo va aggiunta la fortuna solo italiana di secoli d'arte, di capacità di creare con semplicità, e l'arte di reinventarsi. Offriamo vitalità, bellezza, abilità manifatturiera e tecnologie eccellenti. I nostri prodotti sono interamente realizzati con materie prime naturali italiane, e il ciclo produttivo si svolge interamente in Italia.

A collection of products genuinely manufactured in Italy tailored to the needs of the project. A contemporary way of living.

Founded by Massimiliano Strati, graduated in architecture at Politecnico di Milano; Massi is a registered architect in Italy since 1996, experienced one academic year in Scandinavia, at UIAH university of interior design Helsinki, did the first years as junior architect in studios in Milano, breathing the main Italian brands and receiving training on production. For 21 years Massi was architect and export manager, open markets, create business, and matching industrial production to projects for a prime Italian brand. In 2022 founded the new company with the aim of creating a flexible collection of products genuinely manufactured in Italy tailored to the needs of the projects.

Fondata da Massimiliano Strati, laureato in architettura al Politecnico di Milano; Massi è architetto iscritto all'ordine in Italia dal 1996. Trascorre un anno accademico in Scandinavia, presso l'università di interior design UIAH di Helsinki, nei primi anni è junior architect presso i migliori studi di Milano respirando e vivendo i principali marchi italiani con training sulla produzione. Per 21 anni Massi è stato architetto ed export manager, ha aperto mercati, creato business e ha adattato la produzione industriale ai progetti per una primaria azienda italiana del design. Nel 2022 fonda la nuova azienda con l'obiettivo di creare una collezione flessibile, genuinamente prodotta in Italia.

Lake of Como is an area that develops north of Milan and Brianza, the most famous furniture & design district in the world.
Our home.

Lake of Como unites excellences such as landscape, culture, industries and arts. The soul of Lake Como presents itself in its full beauty and is recognized everywhere. Lake of Como is a unique place in the world. This is the area that develops north of Milan and Brianza. This is our territory. Lake of Como is our home.

Il Lago di Como è un territorio che si sviluppa a nord di Milano, e della Brianza, il distretto di mobili più famoso al mondo, Il lago di Como unisce eccellenze come il paesaggio, la cultura, l'industria, le arti. L'anima del Lago di Como si presenta nella sua piena bellezza ed è riconosciuta ovunque. Il Lago di Como è un luogo unico al mondo. Il Lago di Como è la nostra casa.

Kitchen

M1

The essence of material

Essential lines, rich materials, technology and research. A union of warm material tones combined with the structural presence of wood. - Linee essenziali, materiali ricchi di calore, una tecnologia frutto della ricerca. Un'unione di toni materici caldi accostati alla presenza strutturale del legno.

M1 is a kitchen designed to enhance the use of natural materials. M1 offers innovation with exclusive treatments of woods, together with marble and stainless steel. Doors & countertops are characterized by a significant portions that align perfectly. - La cucina M1 esalta l'uso dei materiali naturali. M1 offre innovazione e lavorazioni esclusive del legno marmo e acciaio. Le ante i piani lavoro sono caratterizzate da elementi significativi che si allineano perfettamente.

M2

The soul of details

The research of the perfection belongs to details; lines in equilibrium create new shapes with the simple 30° inclined edge of a door that becomes handle. Geometric simple pureness.
- La perfezione sta nella ricerca dei dettagli; linee in equilibrio che creano nuove forme, semplicemente inclinando un'anta a 30° che diventa maniglia. Geometria in purezza .

M2

M2 is featured with the 30° door. The materials used can be mixed together; the total possibility of customization makes this model suitable for every request. - M2 è caratterizzata dall'inconfondibile anta a 30°. I materiali utilizzati per i frontali possono essere mixati tra di loro; la totale possibilità di personalizzazione rende questo modello adatto ad ogni richiesta.

Line

Design essentials

Simple and rational shapes. Line is the essence of harmony; a handle recessed directly into the door which allow maximum ergonomics for the openings. Contemporary shapes and minimal design. - Forme semplici e razionali. Line è armonia; una maniglia incassata direttamente nell'anta che favorisce la massima ergonomia per le aperture. Forme contemporanee e design minimale.

Handle

Freedom in design

A perfect shaped door can be personalized according simply with a multitude of handles. Long, short, vertical, horizontal, recessed, round, thin, thick; sometimes perfection is without any handle. - Un'anta dalla forma perfetta può essere personalizzata con molte tipologie di maniglia. Lunga, corta, verticale, orizzontale, incassata, rotonda, fine, spessa; qualche volta la perfezione significa anche nessuna maniglia.

HANDLE

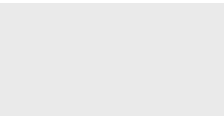

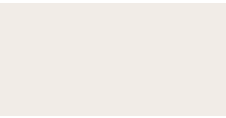

Design matches ergonomomy in shelving that integrates the kitchen funtionality; our kitchens utilizes 30° led light last generation for a complete eye protection - Il design raffinato incontra l'ergonomia integrando i ripiani con la funzionalità della cucina; noi utilizziamo led di ultima generazione inclinati di 30° per una sana e completa protezione degli occhi.

The Massimiliano Strati® finishes are the result of years of research, culture and sensibility towards materials. The research ranges from fabric trends, to the natural grain of wood, to the porosity of stone up to lacquered sampling. The use of the proposed palettes ensures balance between light and shadow; materials become the protagonists of space.

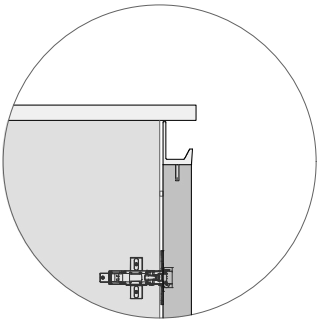

Le finiture Massimiliano Strati® sono il risultato di anni di ricerca, cultura e sensibilità verso i materiali. La ricerca spazia dalle tendenze di tessuto, alle venature naturali del legno, alla porosità della pietra fino ad arrivare alla campionatura laccata. L'utilizzo delle palette proposte, assicura l'equilibrio tra luci ed ombre; la materia diventa protagonista dello spazio.
